Nukkin Ya Study Guide:

Feature Films in English Language Teaching Britta Viebrock, 2016-07-11 Feature Films in English Language Teaching deals with the use of motion pictures in the advanced EFL English as a foreign language classroom. It provides a general introduction to film literacy and explains the rationale, methods and objectives of working with feature films. In addition, the book contains in-depth considerations on sixteen selected films which are grouped regionally: Australia, New Zealand, South Africa, USA, Great Britain. Each chapter describes the topical focus of the film and its central theme and provides background information on social, historical, political and geographical issues. A profound analysis of selected scenes lays the foundation for considerations on the teaching potential of the film. In a download section, the chapters are complemented with ready-to-use teaching materials on film-specific aspects: narrative, dramatic and cinematographic dimensions, which are organised as pre-while-post viewing activities. A glossary on technical terms for film analysis completes the volume.

German-Australian Encounters and Cultural Transfers Benjamin Nickl, Irina Herrschner, Elżbieta M. Goździak, 2018-01-12 This book approaches Australo-German relations from comparative and interdisciplinary perspectives. It maps new pathways into the rich landscape of the Australo-German transnational encounter, which is characterized by dense and interwoven cultural, historical and political terrains. Surveying an astonishingly wide range of sites from literary translations to film festivals, Aboriginal art to education systems, the contributions offer a uniquely expansive dossier on the migrations of people, ideas, technologies, money and culture between the two countries. The links between Australia and Germany are explored from a variety of new interdisciplinary perspectives and situated within key debates in literary and cultural studies, critical theory, politics, linguistics and transnational studies. The book gathers unique contributions that span the areas of migration, aboriginality, popular culture, music, media and institutional structures to create a dynamic portrait of the exchanges between these two nations over time. Australo-German relations have emerged from intersecting histories of colonialism, migration, communication, tourism and socio-cultural representation into the dramatically changed twenty-first century, where traditional channels of connection between nations in the Western hemisphere have come undone but new channels ensure cross-fertilization between newly constituted borders.
