Kröplin, 2007-12-21 The book contains 14 invited contributions written by distinguished authors who participated in the Second International Conference on Textile Composites and Inflated Structures held in Stuttgart 2-4 October 2005 The book includes state of the art contributions written by international experts in the field of design analysis and construction of textile composites and inflatable structures The different chapters discuss recent progress and future research directions the field **Optimal Control Theory** Donald E.
