Transfer, Diffusion and Adoption of Next-Generation Digital Technologies Sujeet K. Sharma, Yogesh K. Dwivedi, Bhimaraya Metri, Banita Lal, Amany Elbanna, 2023-12-12 This book constitutes the refereed proceedings of the IFIP WG 8.6 International Working Conference on Transfer and Diffusion of IT TDIT 2023 which took place in Nagpur India in December 2023. The 87 full papers and 23 short papers presented in these proceedings were carefully reviewed and selected from 209 submissions. The papers are organized in the following topical sections: Volume I: Digital technologies, artificial intelligence, adoption, digital platforms and applications, digital technologies in e-governance, metaverse and marketing; Volume II: Emerging technologies, adoption, general IT adoption, healthcare IT adoption; Volume III: Industry 4.0, transfer, diffusion and adoption of next generation digital technologies, diffusion and adoption of information technology. *Internet Children's Television Series, 1997-2015* Vincent Terrace, 2016-08-04 Created around the world and available only on the web, internet television series are independently produced, mostly low budget shows that often feature talented but unknown performers. Typically financed through crowd funding, they are filmed with borrowed equipment and volunteer casts and crews, and viewers find them through word of mouth or by chance. The fifth in a series focusing on the largely undocumented world of internet TV, this book covers 573 children's series created for viewers 3 to 14. The genre includes a broad range of cartoons, CGI live action comedies and puppetry. Alphabetical entries provide websites, dates, casts, credits, episode lists and storylines.

Language Education in Digital Spaces: Perspectives on Autonomy and Interaction Carolin Fuchs, Mirjam Hauck, Melinda Dooly, 2021-09-09 This book brings together contributions on learner autonomy from a myriad of contexts to advance our understanding of what autonomous language learning looks like with digital tools and how this understanding is shaped by and can shape different socio-institutional, curricular and instructional support. To this end, the individual contributions in the book highlight practice-oriented, empirically based research on technology-mediated learner autonomy and its pedagogical implications. They address how technology can support learner autonomy as process by leveraging the affordances available in social media, virtual exchange, self-access or learning in the wild. Hutchins, 1995 The rapid evolution and adoption of technology in all aspects of our lives has pushed issues related to learner and teacher autonomy centre stage in the language education landscape. This book tackles emergent challenges from different perspectives and diverse learning ecologies with a focus on social and educational inequality. Specifically, to this effect, the chapters consider digital affordances of virtual exchange, gaming and apps in technology-mediated language learning and teaching, ranging from instructed and semi-instructed to self-instructed contexts. The volume foregrounds the concepts of critical digital literacy and social justice in relation to language learner and teacher autonomy and illustrates how this approach may contribute to institutional objectives for equality, diversity and inclusion in higher education around the world and will be useful for researchers and teachers alike.
