an intrinsically affective force on a field of social relations From liking sharing posting or swiping to watching a TED Talk or wearing an I Voted sticker such gestures operate as much through affective registers as they do through overt symbolic action Ingraham demonstrates that gestures of concern are central to establishing the necessary conditions for larger social or political change because they give the everyday aesthetic and rhetorical practices of public life the capacity to attain some socially legible momentum Rather than supporting the notion that vociferous public communication is the best means for political and social change Ingraham advances the idea that concerned gestures can help to build the affective communities that orient us to one another with an imaginable future in mind Ultimately he shows how acts that many may consider trivial or banal are integral to establishing those background conditions capable of fostering more inclusive social or political change **Library Journal** ,2008 **The Publishers Weekly** ,2008 **The Fruit Grower and Farmer** ,1916
