Box,2022-12-15 Winner of the 2009 Edgar Award for Best Novel Blue Heaven is a thrilling read from New York Times bestseller C J Box creator of the characters of hit TV shows Joe Pickett and Big Sky They were running away from home Now they re running for their lives If twelve year old Annie hadn t been angry with her mother she would never have taken her younger brother William fishing in the woods near Blue Heaven And they would never have witnessed four police officers committing a violent murder These men know exactly who William and Annie are To save themselves the children must run They don t trust anyone until they meet Jess Rawlins an old school rancher who knows there s something wrong with the law in this town Jess helps the children but there are eyes everywhere and you can only run for so long before you re caught Reviews for Blue Heaven Crackles with electric tension and action Denver Post Hard to put down Toronto Sun A terrific suspense novel You ll be hooked Toronto Globe and Mail Box delivers surprises until the final page Billings Gazette **Outer Continental Shelf Natural Gas and Oil Resource Management Comprehensive Program, 1992-1997** United States. Minerals Management Service,1991 **Gulf of Mexico and Offshore Alaska Outer Continental Shelf (OCS (Outer Continental Shelf)) Oil and Gas Leasing Program 1997-2002 for 16 Lease Sales on Five-year Leasing Program** ,1996 **World Development Report 2016** World Bank Group,2016-01-14 Digital technologies are spreading rapidly but digital dividends the broader benefits of faster growth more jobs and better services are not If more than 40 percent of adults in East Africa pay their utility bills using a mobile phone why can t others around the world do the same If 8 million entrepreneurs in China one third of them women can use an e commerce platform to export goods to 120 countries why can t entrepreneurs elsewhere achieve the same global reach And if India can provide unique digital identification to 1 billion people in five years and thereby reduce corruption by billions of dollars why can t other countries replicate its success Indeed what s holding back countries from realizing the profound and transformational effects that digital technologies are supposed to deliver Two main reasons First nearly 60 percent of the world s population are still offline and can t participate in the digital economy in any meaningful way Second and more important the benefits of digital technologies can be offset by growing risks Startups can disrupt incumbents but not when vested interests and regulatory uncertainty obstruct competition and the entry of new firms Employment opportunities may be greater but not when the labor market is polarized The internet can be a platform for universal empowerment but not when it becomes a tool for state control and elite capture The World Development Report 2016 shows that while the digital

revolution has forged ahead its analog complements the regulations that promote entry and competition the skills that enable workers to access and then leverage the new economy and the institutions that are accountable to citizens have not kept pace And when these analog complements to digital investments are absent the development impact can be disappointing What then should countries do They should formulate digital development strategies that are much broader than current information and communication technology ICT strategies They should create a policy and institutional environment for technology that fosters the greatest benefits In short they need to build a strong analog foundation to deliver digital dividends to everyone everywhere

The Changing Face of Japanese Retail Louella Matsunaga, 2012-09-10 This book examines employment structure working practice and recruitment strategies in Japanese retail in the 1990s through a case study of one large chain store Issues focused on include gender in the workplace changing notions of corporate community and the impact of Japan s recent recession In particular the research presented here challenges the view of part time female staff as peripheral to the workforce and asks whether a rethink of the Japanese employment system is now overdue

Place, (In)Equality and Gender Faber, Stine Thidemann, Nielsen, Helene Pristed, Bennike, Kathrine Bjerg, 2015-07-08 This mapping presents a selected overview of existing research on gender education and population flows in the Nordic peripheral areas These areas are faced with a series of challenges that cannot be analyzed nor solved without taking a gender perspective into account The challenges relate to for instance altered living conditions caused by global changes stagnated or negative economic development decrease in the amount of workplaces particularly in the traditionally male dominated professions as well as not least migration and depopulation which is partly due to the fact that the young people of the area especially the women move

to bigger cities to educate themselves The challenges in question are not only significant in relation to the viability and cohesion of the areas but also for the men and women who live there and their mutual social relations First Stop for Jobs and Industries Jennifer A.
