

COMPARE AND CONTRAST

Read the passage carefully. Identify if the given statements compares (CE) or contrasts (CT) the two characters.

Jen had a best friend whose name was also Jenn but with a double "n." They had beautiful brown eyes and blonde hair. But Jenn had long, wavy hair, while Jen had short, straight hair. They went to the same school and studied in the same class. They enjoyed playing sports together. They both excelled in their artistic talents, with a knack for drawing. One of them had a cat as a pet, while the other had a dog. They had different favorite colors, adding a unique touch to their friendship. They were responsible and often helped each other with homework. Coincidentally, their birthdays were in the same month. They loved their pets very much. Jenn took her cat wherever she went, while Jen's dog was her constant companion. However, tragedy struck when Jen forgot to close her dog's cage one day, and that was the last day she saw her pet. On the other hand, Jenn's cat brought joy to her life, and they played together every night.

1. They studied in the same class and school. _____

Handbook of Response to Intervention and Multi-Tiered Systems of Support Paige C. Pullen, Michael J. Kennedy, 2018-10-04

Of the many issues facing special education and general education today, it is difficult to imagine one more important or timely than response to intervention (RTI). Almost overnight, RTI has become standard practice across the nation. Unfortunately, RTI remains ill defined, falls far short of its evidence-based practice goal, is almost invariably misused, and often results in more harm than good. Nevertheless, as a conceptual framework, RTI has great potential for ensuring that students with disabilities receive appropriate evidence-based instruction. The mission of this handbook is to present a comprehensive and integrated discussion of response to intervention (RTI) and its relation to multi-tiered systems of support (MTSS) in both special education and general education. Although the two terms are currently used interchangeably, distinct differences exist between them. Therefore, chapters are dedicated to distinguishing the two concepts, RTI and MTSS, and describing each one's unique role in both general and special education. In addition, the authors recommend a third term, Multi-Tiered Instruction, to differentiate the practices related to the purpose of the specific intervention.

The Routledge Handbook of Second Language Acquisition and Technology Nicole Ziegler, Marta González-Lloret, 2022-01-31

Technology-mediated language learning has matured over the past few decades, with various tools and contexts now widely used in language education for all ages and levels. Many of today's language learners have experienced technology as an ever-present feature both within and beyond the classroom, highlighting how the role of technology has expanded into many daily activities and underscoring how research in Second Language Acquisition (SLA) can inform and support the use of established and emerging technologies. The role of technology in language learning has continued to grow, with the recent COVID-19 global pandemic further demonstrating the potential contributions of technology for supporting and facilitating second language development. Answering this increasing interest, this Handbook provides students, teachers, and scholars with a comprehensive collection of chapters on foundational topics and key issues related to technology, SLA, and where relevant, pedagogical applications.
