Devlin,2014-07-14 Guiding readers through the disorienting dreamworld of James Joyce s last work Kimberly Devlin examines Finnegans Wake as an uncanny text one that is both strange and familiar In light of Freud s description of the uncanny as a haunting awareness of earlier repressed phases of the self Devlin finds the uncanniness of the Wake rooted in Joyce s rewritings of literary fictions from his earlier artistic periods She demonstrates the notion of psychological return as she traces the obsessions scenarios and images from Joyce s waking fictions that resurface in his final dreamtext in uncanny forms transformed yet discernible often to uncover hidden unconscious truths Drawing on psychoanalytic arguments and recent feminist theory Devlin maps intertextual connections that reveal many of Joyce s most deeply felt imaginative and intellectual concerns such as the self in its decentered relationship to language the elusive nature of human identity the anxieties implicit in mortal selfhood the male subject in its opposition to the female sexual other She suggests that the Wake records Joyce s implicit interest in the psychological counterpart to Vico s theory of historical repetition Freud s theory of the insistent internal return of earlier narratives Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Romance of King Anlin Darma in Javanese Literature** G.W.J.
