scaling video production personalized video AI future of video creation generative AI videos **Visuelle Einflussfaktoren für reichweitenstarke TikTok-Videos** Christina Burger, 2021 Das schnelle Wachstum und das Potential welches die Video Plattform TikTok ausmachen sind Grund warum diese Applikation weiter erforscht werden muss Zum aktuellen Zeitpunkt sind bereits Forschungen vorhanden welche unterschiedliche Aspekte beleuchten das Verhalten von Nutzerinnen und Nutzern den Algorithmus welcher durch eine Artificial Intelligence geprägt ist und einige weitere TikTok bietet die Möglichkeit Personen zu erreichen die zuvor nicht mit der Seite einer Videoproduzentin oder eines Videoproduzenten interagiert haben um die Inhalte sehen zu können Dies ist ein besonderes Merkmal der Social Media Plattform Aus diesem Grund beleuchtet und analysiert diese Abhandlung visuelle Faktoren welche zur Erhöhung der Reichweite eines TikTok Videos beitragen Dies führt zur Forschungsfrage Welche visuellen Kriterien bergen das Potenzial zur Steigerung der Reichweite eines TikTok Videos Die Analyse wurde anhand einer Videoanalyse durchgeführt welche international und interdisziplinär als Teil der qualitativen Forschungsmethodik anerkannt ist Die Analyse wird anhand der interpretativen Videoanalyse durchgeführt welche Erkenntnisse nicht nur durch Häufigkeit und statistischer Korrelationen ermöglicht sondern auch den Sinn der Handlung verstehen lässt und dabei erläutert Sowohl die Handlungen der gefilmten als auch das der videoproduzierenden Personen wurden analysiert Im Rahmen der empirischen Forschung wurde ein Kriterienkatalog entworfen anhand welchem die Stichproben analysiert und bewertet wurden um so feststellen zu können welche Kriterien einen Einfluss auf die Reichweite haben können Die Kriterien beschränken sich hierbei auf visuelle Faktoren und es wurden lediglich Videos analysiert welche sich an einem Match Frame oder einem Jump Cut beide Varianten zählen zu Videoschnitt Möglichkeiten bedienen um so einen Überraschungseffekt zu erzeugen Das Kernergebnis der Forschung beläuft sich darauf dass Videos eine erhöhte Reichweite erzielen konnten insofern die Veränderung nach dem Match Frame und oder dem Jump Cut deutlich zu erkennen war Neben diesem Überraschungseffekt gilt auch der Faktor Licht als grundlegend wichtig jedoch hängt die schlussendliche Reichweite eines TikTok Videos von vielen weiteren Faktoren ab The rapid growth and potential of the video platform TikTok is the reason why this application needs further research At the present time research is already available that sheds light on different aspects the behavior of users the algorithm which is characterized by an artificial intelligence and some others TikTok offers the possibility of reaching people who have not interacted with a video producer's page beforehand in order to see the content This is a distinctive feature of the social media platform For this reason this work highlights and analyzes visual factors that contribute to increasing the reach of a TikTok video This leads to the research question which visual criteria hold the potential to increase the reach of a TikTok video The analysis was conducted using video analysis which is internationally and interdisciplinarily recognized as part of qualitative research methodology The analysis is conducted using interpretive video analysis which allows insights not only through frequency and statistical correlations but also allows the meaning of the action to be understood and explained in the process Both the actions of the

filmed and that of the video producing persons were analyzed As part of the empirical research a set of criteria was designed against which the samples were analyzed and evaluated in order to determine which criteria may have an impact on the coverage The criteria are limited to visual factors and only videos were analyzed that make use of a match frame or a jump cut both variants count as video editing options in order to create a surprise effect The core result of the research amounts to the fact that videos could achieve an increased reach as far as the change after the match frame and or the jump cut was clearly recognizable In addition to this surprise effect the light factor is also considered fundamentally important but the final reach of a TikTok video depends on many additional factors
