Digressions and the Human Imagination Morten Nielsen, 2024-09-30 Digressions and the Human Imagination makes a significant contribution to our anthropological knowledge about human creativity The creative force of the human imagination is widely considered as a key ingredient in understanding how social and cultural transformations occur And yet what we know about the nature of creative processes is surprisingly limited Taking their cue from literary studies the contributors to this volume explore digression as human creativity's main impulse They offer a series of experimental explorations of digression in different arenas of social life literature conversations myths humour art and wayfinding In their examination of the relationship between creativity and digressive processes the contributions challenge and eventually collapse conventional distinctions between artistic and scientific imaginaries This book articulates with clarity the freedom and joy of wandering off in new directions but also the potentially transgressive and even revolutionary character that digression has when it is put to work through the creativity of the human imagination It will be relevant for anthropologists and other scholars from across the humanities and social sciences with an interest in creativity

Dedication and Leadership Douglas Hyde, 2016-10-07 On March 14 1948 Douglas Hyde handed in his resignation as the news editor of the London Daily Worker and wrote the end to twenty years of his life as a member of the Communist Party A week later in a written statement Hyde announced that he had renounced Communism and with his wife and children was joining the Catholic Church The long pilgrimage from Communism to Christ carried Douglas Hyde from complete commitment to Marxism to a questioning uneasiness about Soviet Russia s glaring contradictions of ideology and action to a final rejection of the Party In *Dedication and Leadership* Hyde advances the theory that although the goals and aims of Communism are antithetical to human dignity and the rights of the individual there is much to be learned from communist methods cadres and psychological motivation Hyde describes the Communist mechanics of instilling dedication the first prerequisite for leadership Here is the complete rationale of party technique how to stimulate the willingness to sacrifice the advisability of making big demands to insure a big response the inspirational indoctrination and the subtle conversion methods In this small book so large with implications Douglas Hyde comments on both Communist and Catholic potential and their lack of maximum effectiveness He advocates positive Catholic action not just a negative anti Communism and he points out that the guidelines are now down for a

decisive choice between total Communism and a total Christianity Here is a realistic approach to an acute problem uncolored by emotional propaganda and here is a realistic answer on how to inspire dedication for leadership **Electronic**
