The Web's Greatest Hits Lynie Arden, 2005

Pro Football Prospectus 2005 Aaron Schatz, 2005

For the over 14 million people who play fantasy football every year, for the hardcore fan who wants information beyond sports page recaps, for everyone who bets on the NFL, and for the smart casual enthusiast looking for entertainment and insight, comes the essential preseason annual. With numerous statistical measures that go far beyond standard NFL stats, *Pro Football Prospectus* assesses the DVOA (Defense-adjusted Value Over Average) of every single skill player and determines how many points better a starting player is over the average bench player. It measures special teams, offers advanced offensive line statistics, analyzes teams' abilities to convert draft picks into quality players, and much more. And like its sister publication *Baseball Prospectus*, it is written with a knowing dry wit that gets under the skin of America's most popular spectator sport. Compared by *The New York Times Magazine* to Bill James, the baseball statistics guru, Aaron Schatz is revolutionizing the world of football statistics. In just two years, his Web site FootballOutsiders.com is, by a huge margin, the Web's best independent football site. Writes Gregg Easterbrook of *NFL.com*: "Salon calls it a must for anyone interested in going beyond. This guy has more yards so he must be better." Now Schatz and his team of Football Outsiders are continuing their groundbreaking work with a comprehensive, authoritative book of sophisticated statistical analysis. It also offers solid predictions: in 2004, the Outsiders predicted six of eight division winners, including the Steelers' champion season, the fading year of Ahmad Green, and Jamal Lewis, and the breakout of the New York Jets.

If your budget precludes ARBA, this tool will provide you with the necessary information for the development of your collection. Features 530 critical reviews of reference books, CD-ROMs, and Web sites from the years 2004-2006, written by academic, public, and school librarians or professionals in the field. The reviews are selected based on their appropriateness for school libraries, small college libraries, or small public libraries, i.e., lower priced, highest quality, etc., and feature a coded letter, i.e., C, P, S, indicating the type of library.
