Unhomed Pamela Robertson Wojcik, 2024-04-23 In this rich cultural history Pamela Robertson Wojcik examines America's ambivalent and shifting attitude toward homelessness She considers film cycles from five distinct historical moments that show characters who are unhomed and placeless mobile rather than fixed characters who fail resist or opt out of the mandate for a home of one's own From the tramp films of the silent era to the 2021 Oscar winning Nomadland Wojcik reveals a tension in the American imaginary between viewing homelessness as deviant and threatening or emblematic of freedom and independence Blending social history with insights drawn from a complex array of films both canonical and fringe Wojcik effectively unhomes dominant narratives that cast aspirations for success and social mobility as

the focus of American cinema reminding us that genres of precarity have been central to American cinema and the American story all along

It's Not Free Speech Michael Bérubé, Jennifer Ruth, 2022-04-26 How far does the idea of academic freedom extend to professors in an era of racial reckoning The protests of summer 2020 which were ignited by the murder of George Floyd led to long overdue reassessments of the legacy of racism and white supremacy in both American academe and cultural life more generally But while universities have been willing to rename some buildings and schools or grapple with their role in the slave trade no one has yet asked the most uncomfortable question Does academic freedom extend to racist professors It s Not Free Speech considers the ideal of academic freedom in the wake of the activism inspired by outrageous police brutality white supremacy and the MeToo movement Arguing that academic freedom must be rigorously distinguished from freedom of speech Michael B rub and Jennifer Ruth take aim at explicit defenses of colonialism and theories of white supremacy theories that have no intellectual legitimacy whatsoever Approaching this question from two angles one the question of when a professor s intramural or extramural speech calls into question his or her fitness to serve and two the question of how to manage the simmering tension between the academic freedom of faculty and the antidiscrimination initiatives of campus offices of diversity equity and inclusion they argue that the democracy destroying potential of social media makes it very difficult to uphold the traditional liberal view that the best remedy for hate speech is more speech In recent years those with traditional liberal ideals have had very limited effectiveness in responding to the resurgence of white supremacism in American life It is time B rub and Ruth write to ask whether that resurgence requires us to rethink the parameters and practices of academic freedom Touching as well on contingent faculty whose speech is often inadequately protected It s Not Free Speech insists that we reimagine shared governance to augment both academic freedom and antidiscrimination initiatives on campuses Faculty across the nation can develop protocols that account for both the new realities from the rise of social media to the decline of tenure and the old realities of long standing inequities and abuses that the classic liberal conception of academic freedom did nothing to address This book will resonate for anyone who has followed debates over MeToo Black Lives Matter Critical Race Theory and cancel culture more specifically it should have a major impact on many facets of academic life from the classroom to faculty senates to the office of the general counsel
