Articulate Classroom Prue Goodwin,2013-12-19 This book is an edited collection of articles by leading educationalists and teacher educators on the place of talk in the primary curriculum Each chapter reflects on theoretical aspects of oracy translated into manageable practice *A Social History of Nineteenth-Century France* Roger Price,2021-12-24 First

published in 1987 *A Social History of Nineteenth Century France* argues that the social impact of the French Revolution has been greatly exaggerated and that in 1815 France was still predominantly a rural and pre industrial society The revolution introduced only very limited changes in social structures and relationships the daily lives of ordinary people remained virtually unchanged A much more decisive turning point in French history the author suggests was the period of structural change in economy and society which began in the mid nineteenth century The first part of the book looks at many changes in the economy and their effect on living standards and social environment The second part identifies the social groups which make up French society and provides detailed analyses of their lifestyles and social relationships Part Three considers the influence of such key institutions as churches schools and the state Drawing on an exceptionally wide range of primary sources this is likely to be the definitive overview of French society for many years to come and will be of interest to researchers of French history and European history **Linguistic Diversity and Discrimination** Sender Dovchin,Qian

perspectives from women across geographic contexts sub fields and levels of experience whose stories are not often told putting at the fore their narratives lived experiences and career trajectories in mediating issues around power ideology language policy social justice teaching and learning and identity construction In so doing the book challenges the wider field to expand the borders of discussions on linguistic discrimination and higher education institutions to critically engage with these issues This book will be of interest to scholars in applied linguistics sociolinguistics and cultural studies *Real Life Scrapbooking: Weekly Challenges* , Müfit Bahadır,Andreas Haarstrick,2022-03-25

Winnicott and 'Good Enough' Couple Therapy Claire Rabin,2014-04-03 Claire Rabin innovatively applies the Winnicottian theory of the good enough mother to couple therapy redirecting attention to the therapeutic relationship and the therapist s self awareness regardless of the methods used Using this lens even the therapist s mistakes become an opportunity for repairing both the therapeutic relationship and the partners own personal maturity The intensity and pressure of couple therapy can make each case a test of the therapist s competence The need for neutrality

constitutes on going pressure on the therapist and the proliferation of therapeutic methods can cause confusion about which might be most useful in each situation Applying theory effectively is easier said than done within the context of the powerful emotions unleashed in sessions which can result in a catastrophic atmosphere These factors can make it hard for therapists to utilise their own skills and knowledge within sessions of couple therapy The book explores how therapists and couples can unintentionally further false selves without realising how the very tools of change may counter authenticity Featuring interviews with an international range of couple therapists and case studies from the author's own experiences the key aspects of the good enough concept are elaborated Rabin shows how these ideas can strengthen therapists sense of security and safety in using their lived experience and intuition Winnicott and Good Enough Couple Therapy is the ideal book for clinicians seeking an overarching framework for working with couples or families as well as those concerned with the importance of the client helper relationship
