Minowa, Russell W. Belk, 2018-09-05 How do people communicate their romantic feelings Gift giving is one way Giving and receiving of gifts is a characteristic of intimate relationships Gifts are a message a form of communication with a tangible material object about love affection or concern for the recipient The romantic gift evokes a multitude of intertwined meanings passion intimacy affection persuasion care celebration altruism and nostalgia They can also connote the negative images of obligation and reciprocity Romantic gift giving may be practiced at rituals during rites of passage or for casual occasions to affirm the continued importance of the romantic relationship We may even romanticize the giving of gifts to the self to nonhuman companions and to others we do not know personally If loving and giving are a practice then romantic gift giving is a practice of loving with intimate or would be intimate others This book addresses gift giving among consumers attempting to express and construct romantic love It lies at the intersection of consumption markets and culture In societies shaped by the globalizing neo liberal economic order increasing wealth disparity and a partially digitized social environment that they help to co construct it may be time to rethink romantic love Gift giving is a key arena to do so as gifts make love tangible and act as carriers of meaning as well as cultural symbols In gift giving the meanings of romance are renewed renegotiated and reconstructed Gifts Romance And Consumer Culture demonstrates a wide variety of scholarly work bearing on romantic gift giving using an interpretive consumer research perspective The book introduces critical studies by scholars in this unfolding and new interdisciplinary field

Publishing Romance John Markert, 2016-03-15 Romance novels have attracted considerable attention since their mass market debut in 1939 yet seldom has the industry itself been analyzed Founded in 1949 Harlequin quickly gained market domination with their contemporary romances Other publishers countered with historical romances leading to the rise of bodice ripper romances in the 1970s The liberation of the romance novel's content during the 1980s brought a vitality to the market that was dubbed a revolution but the real romance revolution began in the 1990s with developments in the mainstream publishing industry and continues today This book traces the history and evolution of the romance industry covering successful and not so successful trends and describing changes in romance publishing that paved the way for the many popular subgenres flooding the market in the 21st century
