Teaching is a Human Interaction Alexis L. Jones, 2023-03-01 This book contains an argument supported by education philosophers as well as composite stories data and personal experiences The author mentions a number of scholars e.g Benjamin 1988 Buber 1970 Noddings 2005 2013 Palmer 1983 van Manen 1986 1991 2000 who address important human issues in the field of education and she ties their work and hers to show common themes within the issues of care responsivity and relational ethics The first part of the book Introduction and Chapters 1 3 is primarily philosophical and the author shares the thoughts of the aforementioned scholars and others on topics relating to the very human work teachers do The next section of the book Chapters 4 6 combines theoretical works and empirical data to address the complexity and humanity of teaching While the work described in the aforementioned chapters may appear to present an idea of ethical teacher perfection this is not the case Teachers are not supposed to be nor are they logistically able to be all things to all children The final chapter instead addresses how stakeholders e.g educators administrators parents can

gently move our traditional education system toward this ideal This conclusion shares the ways teachers and teacher educators can conceptualize the work on teaching as human interaction and use it to improve the teaching perception

ENDORSEMENTS Readers of this superb book will be convinced by the end of it that kindness and care are fundamental to good teaching Based on vast teaching experience and a philosophy of care ethics Alexis Jones portrays teaching as a far messier human interaction than is ever formally recognized Using scholarly debate and wonderfully narrated examples the book advocates an ethics of care for teachers navigating interminable choices in almost every moment But beware thinking that teaching the Alexis Jones way is a soft option Quite the contrary striving similarly for academic attainment and caring teacher student relationships involves challenging endeavors for both teacher and student alike David Walker The University of Alabama

Rosenberg and Wan Long Shang tell the story of a boy caught in the middle of cultures friends and growing up Chinese Jewish American in this hilariously witty and heartwarming coming of age. David Da Wei Horowitz has a lot on his plate. Preparing for his upcoming bar mitzvah would be enough work even if it didn't involve trying to please his Jewish and Chinese grandmothers who argue about everything. But David just wants everyone to be happy. That includes his friend Scott who is determined to win their upcoming trivia tournament but doesn't like their teammate and David's best friend Hector. Scott and David begin digging a fallout shelter just in case this Cold War stuff with the Soviets turns south but David's not so convinced he wants to spend forever in an underground bunker with Scott.
