Neoliberal Legality Honor Brabazon,2016-11-10 Neoliberalism has been studied as a political ideology an historical moment an economic programme an institutional model and a totalising political project Yet the role of law in the neoliberal story has been relatively neglected and the idea of neoliberalism as a juridical project has yet to be considered That is neoliberal law and its interrelations with neoliberal politics and economics has remained almost entirely neglected as a subject of research and debate This book provides a systematic attempt to develop a holistic and coherent understanding of the relationship between law and neoliberalism It does not however examine law and neoliberalism as fixed entities or as philosophical categories And neither is its objective to uncover or devise a law of

neoliberalism Instead it uses empirical evidence to explore and theorise the relationship between law and neoliberalism as dynamic and complex social phenomena Developing a nuanced concept of neoliberal legality neoliberalism it is argued here is as much a juridical project as a political and economic one And it is only in understanding the juridical thrust of neoliberalism that we can hope to fully comprehend the specificities and continuities of the neoliberal period as a whole

Community-based Rural Tourism and Entrepreneurship Yasuo Ohe, 2019-11-18 To meet the rising demand for scientific evidence in the context of rural tourism research, this book explores tourism and tourism-related diversification activities performed by farming households and entrepreneurs in rural communities. To do so, it adopts a consistent conceptual and empirical microeconomic approach and employs econometric methodology. Community-based rural tourism (CBRT) is attracting increasing interest in both developed and developing countries since tourism is considered an effective way to promote rural development in all parts of the globe. Further, because information and communication technologies are developing rapidly, new types of communities are now formed more easily than ever. As such, this book covers not only traditional closed agrarian communities but also emerging communities formed by local nonprofit organizations (NPOs) and national networks of farmers who provide educational tourism for consumers. These emerging communities are beyond the range of traditional agrarian communities and complement each other, which helps overcome obstacles to rural tourism for farm operators and urban residents. Those communities also nurture the rural entrepreneurship that eventually will create a sustainable urban-rural relationship. This study, the first of its kind, contributes to the advancement of research on rural tourism from a microeconomic perspective. It presents a conceptual framework for understanding rural tourism from a microeconomic perspective, empirically clarifies the specific issues and constraints for the development of CBRT, and also investigates how to overcome these issues.
