0 London School of Marketing course Strategic Business Management and Planning language English abstract According to Cummings 2003 the word strategy comes from the Greek language and is a combination of the words army and to lead Carter et al 2008 argues that the word strategy is linked both to the military and business fields and has been used in the second approach since the end of the Second World War when some entrepreneurs started to implement strategic planning in their business Big projects and most of the businesses require a plan where the expected and not so expected opportunities and obstacles are forecasted aiming to survive successfully when facing competition According to Chandler 1962 when environment changes take place the urge for new strategies emerges and the company is therefore driven by its new structure It is known that Carnival Corporation started as a small business and driven by its founder through his

enthusiasm goals and plans it became an industrial leader He proved his ambitious when buying the distressed company just after two years of operation Aiming to be different from the other cruise ships from that time Carnival gave special attention to the passengers needs and was the first cruise line company to provide a more entertaining atmosphere onboard In order to have a precise business plan and know where it will be in the future every company needs a focused concept of the current environment where it operates Who are the people involved what is the business concept what are the opportunities who are the competitors what are the keys to success Once all these questions would probably lead to more questions a research process should then be started to obtain the answers according to Cyr 2007 **400+ International Business**
