Johnson, Professor Emeritus of Political Management Dennis W Johnson, 2011-01-31 So much has changed

during the past decade in political campaigning that we can almost say it's a whole new ball game. This book analyzes the way campaigns were traditionally run and the extraordinary changes that have occurred in the last decade. Dennis W. Johnson looks at the most sophisticated techniques of modern campaigning: micro-targeting, online fundraising, digital communication, the new media, and examines what has changed, how those changes have dramatically transformed campaigning, and what has remained fundamentally the same despite new technologies and communications. Campaigns are becoming more open and free-wheeling with greater involvement of activists and average voters alike. But they can also become more chaotic and difficult to control. Campaigning in the Twenty-First Century presents daunting challenges for candidates and professional consultants as they try to get their messages out to voters. Ironically, the more open and robust campaigns become, the greater is the need for seasoned, flexible, and imaginative professional consultants.

The Right Leader Nat Stoddard, Claire Wyckoff, 2009-02-24. A trailblazing approach to choosing executives who both match the needs and fit the cultures of the organizations they will lead. Leadership failures damage or even destroy companies every day. To reduce the costs of leadership failure, the author has developed a revolutionary process for selecting executives based on his years of consulting for some of America's largest corporations. The Right Leader details this new approach and how it eliminates the leadership failures that plague so many companies around the world today. When executives don't address the right needs or can't lead the organization because of a poor fit with the corporation's cultures, the company loses competitive advantage, talented people, and momentum. The Right Leader introduces the revolutionary Match-Fit Model and explains how it reduces the risks and costs of executive failure by changing the factors that are considered and by taking into account the cultural dynamics at play in any organization. Nat Stoddard, New York, NY, is Chairman of Crenshaw Associates, a New York-based consulting firm specializing in career and transition management for senior executives. Claire Wyckoff, New York, NY, is an accomplished writer and editor who has held executive positions in both the corporate and nonprofit sectors.
