Women's Fitness in 15 minutes Robert Duffy,2020-07-27 The Population of the United Kingdom has now reached 67 million 40% approximately 27 million are not classed as physically active This is a shocking statistic and it is getting worse The decline in physical activity starts at around 24 years and it is all downhill from there The unique fifteen minute plan means that anyone from 18 80 can quickly reach their optimum fitness level in just 15 minutes a day They can then maintain their level by exercising just 3 times a week The plan is based on The Royal Canadian Air Force BX Plan and has been the core source of fitness in the Canadian Airforce for over 50years No special equipment is needed all of the exercises are free form and can be done at home in the office or out and about if you travel in your work There is no need to join a gym so there are no fees to pay No group memberships although the plans are really good for families and groups of friends The system is graded so to start with the exercises are quite simple and gentle You move on to the second set of exercises at your own pace All of the exercises are illustrated and there are charts to help you plot your progress Easy steps to get you fit and keep you fit in less time than it probably takes to drive to the gym Fully illustrated and with integral progress charts fitness can be fun With a minimum amount of space and no costs the Need2Know Plan is ideal for anyone from 18 80 **Physical Fitness**

Robert Duffy,2020-08-03 We just don t walk enough anymore Wheels take us everywhere we want to go whether on a long trip or just half a mile or even less Yet we still want to eat plenty often consuming far more calories than we burn in exercise There are gyms of course but they can be expensive and you have to sign up often months ahead The gym may not be nearby so there is the time spent just getting there and back to take into consideration as well as the extra fuel costs But you want to be fit and know that taking regular exercise will improve your health you haven t time for long country walks So how do you go about getting as fit as possible The exercises contained in this book are your answer They don t require expensive equipment just your body and enough room to stretch and turn They were designed originally by the Royal Canadian Air

Force and are meant to ensure that even after a relatively prolonged period of inactivity you can spring quickly into action when required They are designed for those with sedentary jobs perhaps who are city dwellers who aren't particularly interested in joining a sports club or taking part in organised sport We all have to run for a bus from time to time or chase a toddler heading for the gate so we need to be fit and able If we are older we can end up fighting middle aged spread but be proactive and step in before it becomes a problem Whatever your situation these exercises will help to ensure you increase your levels of health and fitness The exercises are graded and progress from the easiest moving on to those of average difficulty through to some which require more effort How quickly you progress is entirely up to you your degree of motivation and the time you have available Following this regime will not turn you into an Olympic athlete but if you want to get fit look fit and stay fit then these exercises are for you
