McGann,Anne Lake Prescott,Barry V. Qualls,Claire Waters,2015-09-01 During the Middle Ages Mary was the most powerful of saints and the combination of her humanity and her proximity to the divine captured the medieval imagination Her importance is nowhere more clearly reflected than in the genre of Miracles of the Virgin short narrative accounts of Mary s miraculous intercessory powers These stories tend to fit a basic narrative pattern in which Mary saves a devoted believer from spiritual or physical danger but beneath this surface simplicity the Miracles frequently evoke fine or revealing theological social and cultural

distinctions They are remarkably various in tone ranging from the darkly serious to the comically scandalous and many display anti-Semitism to a greater degree or with greater punch than do other medieval genres Mary herself takes on a variety of characteristics appearing as dominant and persuasive more often than she appears as gentle and maternal This volume offers a small but representative sampling of what survives of this literature in the English language The Middle English has been helpfully glossed and annotated and is lightly modernized for ease of reading one particularly challenging story is translated in facing page format The In Context sections provide relevant biblical passages and medieval versions of the Christian prayers frequently evoked in the miracles additional samples of Marian poetry and medieval illustrations of Marian miracles are also included

The Sea and Medieval English Literature Sebastian I. Sobecki, 2008 A fresh and invigorating survey of the sea as it appears in medieval English literature from romance to chronicle hagiography to autobiography As the first cultural history of the sea in medieval English literature this book traces premodern myths of insularity from their Old English beginnings to Shakespeare's *Tempest* Beginning with a discussion of biblical classical and pre-Conquest treatments of the sea it investigates how such works as the Anglo-Norman *Voyage of St Brendan* the Tristan romances the chronicles of Matthew Paris *King Horn* *Patience* *The Book of Margery Kempe* and *The Libelle of Englyshe Polycye* shape insular ideologies of Englishness Whether it is Britain's privileged place in the geography of salvation or the political fiction of the idyllic island fortress medieval English writers' myths of the sea betray their anxieties about their own insular identity their texts call on maritime motifs to define England geographically and culturally against the presence of the sea New insights from a range of fields including jurisprudence theology the history of cartography and anthropology are used to provide fresh readings of a wide range of both insular and continental writings

answers by suggesting that these poems can most usefully be read as a kind of play in several senses of that word The book ends with eight new Middle English lyrics by seven contemporary poets *Virgin Whore* Emma Maggie Solberg, 2018-12-15

In *Virgin Whore* Emma Maggie Solberg uncovers a surprisingly prevalent theme in late English medieval literature and culture the celebration of the Virgin Mary's sexuality Although history is narrated as a progressive loss of innocence the Madonna has grown purer with each passing century Looking to a period before the idea of her purity and virginity had ossified Solberg uncovers depictions and interpretations of Mary discernible in jokes and insults icons and rituals prayers and revelations allegories and typologies and in late medieval vernacular biblical drama More unmistakable than any cultural artifact from late medieval England these biblical plays do not exclusively interpret Mary and her virginity as fragile In a collection of plays known as the N Town manuscript Mary is represented not only as virgin and mother but as virgin and promiscuous adulteress dallying with the Trinity the archangel Gabriel and mortals in kaleidoscopic erotic combinations Mary's virginity signifies invulnerability rather than fragility redemption rather than renunciation and merciful license rather than ascetic discipline Taking the ancient slander that Mary conceived Jesus in sin as cause for joyful laughter the N Town plays make a virtue of those accusations through bawdy yet divine comedy she redeems and exalts the crime By revealing the presence of this promiscuous Virgin in early English drama and late medieval literature and culture in dirty jokes told by Boccaccio and Chaucer Malory's Arthurian romances and the double entendres of the allegorical *Mystic Hunt of the Unicorn* Solberg provides a new understanding of Marian traditions **Art and Mysticism** Louise Nelstrop, Helen Appleton, 2018-06-12

From the visual and textual art of Anglo Saxon England onwards images held a surprising power in the Western Christian tradition Not only did these artistic representations provide images through which to find God they also held mystical potential and likewise mystical writing from the early medieval period onwards is also filled with images of God that likewise refracts and reflects His glory This collection of essays introduces the currents of thought and practice that underpin this artistic engagement with Western Christian mysticism and explores the continued link between art and theology The book features contributions from an international panel of leading academics and is divided into four sections The first section offers theoretical and philosophical considerations of mystical aesthetics and the interplay between mysticism and art The final three sections investigate this interplay between the arts and mysticism from three key vantage points The purpose of the volume is to explore this rarely considered yet crucial interface between art and mysticism It is therefore an important and illuminating collection of scholarship that will appeal to scholars of theology and Christian mysticism as much as those who study literature the arts and art history *Reading in the Wilderness* Jessica Brantley, 2008-09-15

Just as twenty first century technologies like blogs and wikis have transformed the once private act of reading into a public enterprise devotional reading experiences in the Middle Ages were dependent upon an oscillation between the solitary and the communal In *Reading in the Wilderness* Jessica Brantley uses tools from both literary criticism

and art history to illuminate Additional MS 37049 an illustrated Carthusian miscellany housed in the British Library This revealing artifact Brantley argues closes the gap between group spectatorship and private study in late medieval England Drawing on the work of W J T Mitchell Michael Camille and others working at the image text crossroads Reading in the Wilderness addresses the manuscript s texts and illustrations to examine connections between reading and performance within the solitary monk s cell and also outside Brantley reimagines the medieval codex as a site where the meanings of images and words are performed both publicly and privately in the act of reading The Middle English Book Michael Johnston,2023-07-25 The monograph series Oxford Studies in Medieval Literature and Culture showcases the plurilingual and multicultural quality of medieval literature and actively seeks to promote research that not only focuses on the array of subjects medievalists now pursue in literature theology and philosophy in social political jurisprudential and intellectual history the history of art and the history of science but also that combines these subjects productively It offers innovative studies on topics that may include but are not limited to manuscript and book history languages and literatures of the global Middle Ages race and the post colonial the digital humanities media and performance music medicine the history of affect and the emotions the literature and practices of devotion the theory and history of gender and sexuality ecocriticism and the environment theories of aesthetics medievalism The Middle English Book addresses a series of questions about the copying and circulation of literature in late medieval England How do we make sense of the variety of manuscripts surviving from this period Who copied and disseminated these diverse manuscripts Who read the literary texts that they transmit And what was the relationship between those copying literature and those reading it To answer these questions this book examines 202 literary manuscripts from the period 1350 to 1500 First this study suggests that most surviving manuscripts fall into four categories depending on the proximity and relationship of that manuscript s scribes and readers But beyond proposing these new categories this book also looks at the history of writing practices and demonstrates the ubiquity of bureaucracies within late medieval England As a result The Middle English Book argues that literary production was a decentered affair one that took place within these numerous modest yet complex bureaucracies But this book also argues that because literary production arose in such scattered bureaucracies manuscripts were local products produced within the cultural and economic milieu of their users Manuscripts thus form a fundamentally different sort of cultural artefact than the printed books with which we are familiar a form of centralized urbanized and commercialized textual production that was just over the historical horizon in late medieval England *The English Lyric Tradition* R. James Goldstein,2017-04-03 Modern readers can sometimes be unsure about the language and the literary conventions of medieval and Renaissance verse lyrical works written at a time before poetry was assumed to be about personal expression This readers guide introduces to a 21st century audience some of the greatest masterpieces of English poetry spanning five centuries Focusing on poems by Chaucer Wyatt Shakespeare Milton and others the author discusses the development of poetic technique explains the rhetorical

culture of earlier centuries and describes the various lyric forms including lover s complaints sonnets and elegies that poets used to communicate with readers **Women in Christianity in the Medieval Age** Laura Kalas,Roberta Magnani,2024-12-10 This volume offers a comprehensive introduction to and investigation of the multivocality of women s experience in the Middle Ages In medieval Europe women saw their role in the Christian Church and society progressively confined to conflicting models of femininity epitomised by the dichotomy of Eve Mary Classical views of gender predicated on misogynistic dichotomies which confined women to matter and the corruption of the flesh were consolidated in powerful male dominated clerical institutions and widely disseminated Towards the end of the Middle Ages however women s corporeality and somatic spirituality contributed to and influenced burgeoning modes of piety centred around the cult of the Virgin Mary and the veneration of the suffering body of Christ on the Cross This shift in devotional practices afforded women as bodily beings the space for an increased level of self expression self realisation and authority Ranging from philosophical and theological enquiry to education and art as well as medical sciences and popular beliefs the essays in this collection account for the complexities and richness of the conceptualisations and lived experiences of medieval Christian women The book will be especially relevant to students and scholars of religion and history with an interest in medieval studies and gender Whilst expounding the key strands of thinking in the field it engages with and contributes to some of the latest scholarly research **Opening Up Middle English Manuscripts** Kathryn Kerby-Fulton,Maidie Hilmo,Linda Olson,2024-05-15 Deeply informed and lavishly illustrated Opening Up Middle English Manuscripts is a comprehensive introduction to the modern study of Middle English manuscripts It is intended for students and scholars who are familiar with some of the major Middle English literary works such as The Canterbury Tales Gawain and the Green Knight Piers Plowman and the romances mystical works or cycle plays but who may not know much about the surviving manuscripts The book approaches these texts in a way that takes into account the whole manuscript or codex its textual and visual contents physical state readership and cultural history Opening Up Middle English Manuscripts also explores the function of illustrations in fashioning audience response to particular authors and their texts over the course of the fourteenth and fifteenth centuries Kathryn Kerby Fulton Linda Olson and Maidie Hilmo scholars at the forefront of the modern study of Middle English manuscripts focus on the writers most often taught in Middle English courses including Geoffrey Chaucer William Langland the Gawain Poet Thomas Hoccleve Julian of Norwich and Margery Kempe highlighting the specific issues that shaped literary production in late medieval England Among the topics they address are the rise of the English language literacy social conditions of authorship early instances of the Alliterative Revival women and book production nuns libraries patronage household books religious and political trends and attempts at revisionism and censorship As of 2024 Opening Up Middle English Manuscripts is available as an ebook ideal for instructors teaching the book in courses The fully searchable PDF ebook version is available through most digital textbook platforms and library ebook aggregaton platforms
