Handbook of Microfinance, Financial Inclusion and Development Valentina Hartarska, Robert J. Cull, 2023-02-14 This timely Handbook collates a range of evidence from top scholars in the field to help readers understand who microfinance reaches how it helps and why clients come back It offers updated views on important concepts that enable a broader framework for understanding poverty and the corresponding financial needs of poor households

Microfinance and Financial Inclusion Eugenia Macchiavello, 2017-07-20 Following the recent global financial crisis there is a growing interest in alternative finance and microfinance in particular as new instruments for providing financial services in a socially responsible way or as an alternative to traditional banking Nonetheless correspondingly there is also a lack of clarity about how to regulate alternative financial methods particularly in light of the financial crisis lessons on regulatory failure and shadow banking's risks This book considers microfinance from a legal and regulatory perspective Microfinance is the provision of a wide range of financial services particularly credit but also remittances savings to low income people or financially excluded people It combines a business structure with social inspiration often resorts to technological innovations to lower costs Fintech e.g. crowdfunding and mobile banking and merges with traditional local experiences e.g. financial cooperatives and Islamic finance this further complicating the regulatory picture The book describes some of the unique dimensions of microfinance and the difficulties that this can cause for regulators through a comparative analysis of selected European Union EU countries regimes The focus is in fact on the EU legal framework with some references to certain developing world experiences where relevant The book assesses the impact and validity of current financial regulation principles and rules in light of the most recent developments and trends in financial regulation in the wake of the financial crisis and compares microfinance with traditional banking The book puts

forward policy recommendations for regulators and policy makers to help address the challenges and opportunities offered by microfinance

Politicized Microfinance Caroline Shenaz Hossein, 2016-08-04 When Grameen Bank was awarded the Nobel Peace Prize in 2006 microfinance was lauded as an important contributor to the economic development of the Global South. However, political scandals, mission drift, and excessive commercialization have tarnished this example of responsible or inclusive financial development. *Politicized Microfinance* insightfully discusses exclusion while providing a path towards redemption. In this work, Caroline Shenaz Hossein explores the politics, histories, and social prejudices that have shaped the legacy of microbanking in Grenada, Guyana, Haiti, Jamaica, and Trinidad. Writing from a feminist perspective, Hossein's analysis is rooted in original qualitative data and offers multiple solutions that prioritize the needs of marginalized and historically oppressed people of African descent. A must read for scholars of political economy, diaspora studies, social economy, women's studies, as well as development practitioners, *Politicized Microfinance* convincingly deftly argues for microfinance to return to its origins as a political tool fighting for those living in the margins.

Global humanitarianism and media culture Michael Lawrence, Rachel Tavernor, 2019-01-21 This collection interrogates the representation of humanitarian crisis, catastrophe, and care. Contributors explore the refraction of humanitarian intervention from the mid-twentieth century to the present across a diverse range of media forms, including screen media, film, television, and online video, newspapers, memoirs, music, festivals, and social media platforms, notably Facebook, YouTube, and Flickr. Examining the historical, cultural, and political contexts that have shaped the mediation of humanitarian relationships since the middle of the twentieth century, the book reveals significant synergies between the humanitarian enterprise, the endeavour to alleviate the suffering of particular groups, and its media representations, particularly in their modes of addressing and appealing to specific publics. The Agency of the Governed in the Global South Anke Draude, 2020-06-04 Research on global norm diffusion and institutional transfer has often neglected the agency of the governed. This collection argues that limited statehood, the lack of state capacities in most parts of the global South, provides opportunities for the governed to raise their voices and be listened to. Thus, people on the receiving end of development cooperation, state building, or security interventions can significantly shape global dynamics of normative and institutional change. Drawing on the emerging body of literature on the agency of the governed, this book assesses the current dynamics of transfer and diffusion studies at the interstice of political science and social anthropology. By focusing on the agency of the governed, the authors integrate a broad spectrum of issues and debates from the proliferation of global norms to state and security building to international policy cooperation. This book will be of interest to students and researchers of global politics and international relations, particularly those focusing on the global South. It was originally published as a special issue of the online journal *Third World Thematics*.

Microcredit Meltdown Crystal Murphy, 2018-12-03 Established to help people jumpstart their lives and economy after over a half century of conflict the South Sudanese microcredit sector collapsed in 2012 six years after its takeoff to the detriment of some 80 000 participants *Microcredit Meltdown* is an account of the ambitious launch and premature downfall of the Southern Sudanese microcredit industry Through a mixed methods ethnographic approach the book charts the state and non state actors that embarked upon economic development after war the assumptions built into microlending and the impact of ideologies and social norms on economic practice The text compares industry theories with the experiences of borrowers and finds that microcredit failed in South Sudan due to false assumptions that were inapplicable to this post conflict environment Yet the over promising and under delivering commercial microcredit was not isolated to South Sudan or even post conflict settings The Juba microcredit story is an instance of the broader global shift toward the commercial microcredit model Initiated to get badly needed capital into the hands of poor people instead the focus became sustaining a lending program The text shows how the ideological and material constraints of the commercial microcredit paradigm were woefully misaligned with local socio cultural realities and created the collapse in South Sudan

The Violence of Financial Inclusion Anil Shah, 2025-06-27 Financial inclusion appears as a timely development policy Ostensibly providing poor households with access to credit and other financial services contributes to sustainable development and poverty alleviation Anil Shah reveals the colonial roots of microfinance and how these paved the way for its rise in the present Drawing on empirical field research he demonstrates how financial inclusion is the latest incarnation of a class based mode of dominating and exploiting subaltern classes on the Indian subcontinent through gendered and racialised indebtedness As such he offers a vital resource for researchers students and policymakers working in the field of development finance

at the top of the agenda for multilateral development actors Increasingly development institutions aim to include private actors and to lever in private money to support development projects Drawing on case studies conducted in Africa Asia Europe and Latin America this book examines the ways in which these private finance actors are enrolled and associated with the conception and implementation of development policies Beginning with a focus on global actors and private foundations this book considers the ways in which development funding is raised managed and distributed as well as debates at the center of global forums where financialized policies and solutions for development are conceived or discussed The book assembles empirical research on development programs and demonstrates the social consequences of the financializations of development to the people on the ground Highlighting the plurality of processes and outcomes of modern day relations tools actors and practices in financing development around the world this book is key reading for advanced students researchers and practitioners in all areas of finance development and sustainability

Transnational Financial Regulation after the Crisis Tony Porter, 2014-02-05 The global financial crisis that began in 2007 was the most destructive since the 1930s The rapid spread of the crisis across borders and the complexity of these cross border linkages highlighted the importance for authorities of working together in responding to the crisis This book examines the transnational response that relied heavily on a set of relatively informal transnational regulatory groupings that had been constructed over previous decades During the crisis these arrangements were made stronger and more inclusive but they remain very complex Thousands of pages of new rules have been created by various transnational bodies and the implementation of these rules relies heavily on domestic law and regulation and private rules and practices This book analyses this complex response showing that its overly technical and incremental character the persistence of tensions between transnational processes and state centred politics and the ongoing power of private actors have made the regulatory response fall short of what is needed Transnational Financial Regulation after the Crisis provides new insights that are relevant for theory and practice not only for transnational financial regulation but for global governance more generally

Social Sciences **The Political Economy of HIV in Africa** Deborah Johnston, Kevin Deane, Matteo Rizzo, 2018-10-18

Biomedical revolutions seem to have radically altered the environment for HIV transmission anti retrovirals ARVs and drugs to reduce mother to child transmission promise to cut HIV transmission rates as does male medical circumcision However the hopeful messages of UNAIDS are tempered with warning about expenditure shortfalls and calls for funding Contributions to this book remind us that along with the external financial constraints there have been new fractures in state power and in the organisation of health systems More than this the book fundamentally calls into question whether biomedical interventions can change the social roots of this disease As well as considering new policy approaches the book reasserts a long standing political economy approach to HIV and to adapt it to reflect new competing theoretical approaches The chapters attempt to connect the debates about HIV AIDS to larger discussions about globalisation class differentiation inequity and uneven development in African countries This book was originally published as a special issue of Review of African Political Economy
