Introduction

In this tutorial, you will learn some basic skills that will help you to create a work breakdown structure (WBS) using Microsoft Project 2010 (MSP). MSP has been around for a long time and is one of the most popular software project management tools around.

Starting Microsoft Project

Although different computers can be set up in different ways, you can start MSP by clicking the Windows START Button and then opening MSP. If MSP does not have its own icon, you can probably find it under Microsoft Office.

Once you open MSP, you should see a screen similar to the one below.

Navigating the Menus and Icons

If you are a user of Microsoft Office, the MSP screen should look familiar to you. Take a few moments to familiarize yourself with the MSP menu and icons. The Ribbon is the newest feature for the Office 2010 suite, and MSP10 has a similar interface.
