Cross-Linguistic Transfer of Writing Strategies Karen Forbes, 2020-10-19 In the context of increasingly multilingual global educational settings this book provides a timely exploration of the phenomenon of cross linguistic transfer of writing strategies in particular transfer from the foreign language to the first language and presents a compelling case for a multilingual approach to writing pedagogy The book presents evidence from a classroom based intervention study conducted in a secondary school in England on cross linguistic strategy transfer It suggests that even beginner or low proficiency foreign language learners can develop effective skills and strategies in the foreign language

classroom which can also positively influence writing in other languages including their first language This book ultimately encourages more joined up cross curricular cross linguistic thinking related to language in schools by exploring the potential for collaboration between languages teachers

Gifted?: The shift to enrichment, challenge and equity Morgan Whitfield, 2024-07-19 Gifted and talented is a zombie It is dead but still walking around There are new labels to stratify students more able significantly able high aptitude learners New labels do not equal new thinking The concept of gifted is still stubbornly embedded in our educational structures with its legacy of social immobility racism and sexism Students can be more able when they have more financial resources more access more visibility or more cultural acceptance There are pervasive narratives that educators should prioritise extension for some students and not others We can dispel the myth that pitching lessons judiciously to middle ability and then differentiating up and down is effective This book explores how we can provide every student with rigorous challenge Challenge for all is an inclusive approach to teaching whereby every student is invited and given the tools to reach a place of mastery This can be through project based learning Harkness round tables oracy adaptive teaching inclusive enrichment programs dynamic classroom strategies and a schoolwide mission for equity Educators can embed powerful knowledge into the curriculum reimagine teaching to the top and stretch learners through personalised and responsive instruction The shift to enrichment challenge and equity creates magnificent possibilities The message to all students is you belong here
