Migration Development And Transnationalization Critical Interventions:

Migration, Development, and Transnationalization Nina Glick Schiller, Thomas Faist, 2010-11-01 The relationship between migration and development is becoming an important field of study yet the fundamentals analytical tools conceptual framework political stance are not being called into question or dialogue This volume provides a valuable alternative perspective to the current literature as the contributors explore the contradictory discourses about migration and the role these discourses play in perpetuating inequality and a global regime of militarized surveillance The assumptions surrounding the asymmetrical transfers of resources that accompany migration are deeply skewed and continue to reflect the interests of the most powerful states and the institutions that serve their interests Those who seek to address the morass of development failure vitriolic attacks on immigrants or sanguine views about migrant agency are challenged by this volume to put aside their methodological nationalism and pursue alternative pathways out of the quagmire of poverty violence and fear that is enveloping the globe

Remittances as Social Practices and Agents of Change Silke Meyer, Claudius Ströhle, 2023-08-31 This open access book explores the transformative effects of remittances Remittances are conceptualized as flows of money objects ideas traditions and symbolic capital mapping out a cross border space in which people live work and communicate with multiple belongings By doing so they effect social change both in places of origin and destination However their power to improve individual living conditions and community infrastructure mainly results from global inequality Hence we challenge the remittance mantra and go beyond the migration development nexus by revealing dependencies and frictions in remittance relations Remittances are thus scrutinized in their effects on both social cohesion and social rupture By highlighting the transformative effects of remittance in the context of conflict climate change and the postcolonial we shed light on the future of transnational society Presenting empirical case studies from Ghana Burkina Faso Sri Lanka New Zealand Turkey Lebanon USA Japan and various European countries as well as historical North America and the Habsburg Empire we explore remittance relations from a range of disciplines including anthropology sociology history design architecture governance and peace studies
