Migration Urbanization And Development New Directions And Issues:

Migration, Urbanization, and Development Richard E. Bilsborrow, 1998 Internal migration and urbanization are key dimensions of the process of socioeconomic development The unprecedented movement of peoples within the borders of their own countries is one of the greatest transformations witnessed in the 20th century Policy analysts especially those from developing countries where internal migration can be felt at first hand view migration as one of the most important factors affecting the course of development It is within this context that UNFPA convened the Symposium on Internal Migration and Urbanization in Developing Countries in January 1996 in preparation for the United Nations World Conference on Human Settlements in Istanbul in June 1996 The final results of the symposium are found in this book This volume provides a better understanding at global level of internal migration issues of concern to policy analysts Verstädterung, Migration und wirtschaftliche Entwicklung Silvio Kermer, 2007 Die Bedeutung sozialen Kapitals für Migrationsprozesse Gisela Will, 2016-03-07 In dieser empirischen Studie untersucht Gisela Will anhand aufwendig erhobener Primärdaten die Bedeutung sozialen Kapitals für Migrationsentscheidungen am Beispiel des polnisch deutschen Migrationsgeschehens Hierbei wird nicht nur das gängige Vorgehen in der internationalen Migrationsforschung verfolgt Ereignisdaten anhand retrospektiv erfasster Migrationsbiographien zu analysieren sondern es werden zusätzlich prospektiv erhobene Paneldaten ausgewertet Neben der allgemeinen Prüfung der statistischen Relevanz sozialer Netzwerke für diesen spezifischen Migrationskontext anhand quantitativer Individualdaten werden auch spezifischere Hypothesen aus der Sozialkapitaltheorie abgeleitet und getestet Die Analysen liefern Hinweise darauf dass die aufgefundenen Effekte tatsächlich auf Mechanismen sozialen Kapitals und nicht auf Alternativerklärungen zurückzuführen sind **The Dynamics of Migration, Health and Livelihoods** Kubaje Adazu, 2017-11-28 Using INDEPTH's multi site network to provide new demographic insights into population variables this book provides a new perspective on migration health and livelihoods interaction over time The book starts with providing a conceptual and methodological framework to inform the epidemiological studies that are clustered into two themes showing the dynamics of migration with either household livelihoods or individual health outcomes The findings demonstrate the important cross national regularities in human migration The contributed chapters also exemplify the fact that the impacts of migration can be either positive or negative for sending and or receiving communities depending on the issues at hand and the type of migration under consideration *Environmental Change and Security Project Report*, 1999 **Reporting on migrants and refugees** UNESCO, 2021-06-19 **The New Global Frontier** George Martine, Gordon McGranahan, Mark Montgomery, Rogelio Fernandez-Castilla, 2012-05-23 This remarkable book convincingly challenges urban misconceptions about such issues as growth poverty and the environment and uses compelling evidencebased arguments to demonstrate why urbanization is the most important 21st century priority Its ambitious comprehensive scope ensures that it will become an indispensable classic for policymakers practitioners and academics Caroline Moser Director Global Urban Research Centre

Ending Asian Deprivations Shiladitya Chatterjee, 2013-08-15 Despite Asia's rapid growth vast sections of its population still live in poverty and suffer hunger and other forms of deprivation Merely relying on Asia's growth will not help the deprived see a better future in their lifetimes Ways must be found to make growth more inclusive combined with proactive public action to bring substantial improvements in the lives of Asia's deprived people This book is written by a set of experts who have been working long on reducing various aspects of human deprivations in Asia It begins with a discussion of the massive dimensions of deprivations that continue to exist in Asia Although many countries have adopted inclusive growth strategies to enable the benefits of growth to reach the poor much more needs to be done to make growth processes more broad based and beneficial to all The book points to essential action needed to bring this about The book also emphasizes the crucial role of determined target driven public action if Asia's deprived populations are to see substantial improvement in their lives Practical measures to tackle problems of hunger unemployment gender discrimination ill health lack of quality basic education inadequate access to clean water and basic sanitation are each discussed The problems of the urban poor and migrants who continue to flock to Asia's cities are also highlighted The book also emphasizes the need for an appropriate environment for public action to succeed including strong participatory institutions effective governance social protection and regional cooperation

Circular Migration in Zimbabwe & Contemporary

Sub-Saharan Africa Deborah Helen Potts, 2010 The World Bank insists that the urban share of sub-Saharan Africa's population is rapidly increasing this study shows that in many countries this is no longer true as migration strategies have adapted in response to economic and political change Circular migration whereby rural migrants do not remain permanently in town has particular significance in the academic literature on development and urbanization in Africa often having negative connotations in southern Africanist studies due to its links with an iniquitous migrant labour system Literature on other African regions often views circular migration more positively This book reviews the current evidence about circular migration and urbanization in sub-Saharan Africa The author challenges the dominant view that rural urban migration continues unabated and shows that circular migration has continued and has adapted with faster out migration in the face of declining urban economic opportunities The empirical core of the book illustrates these trends through a detailed examination of the case of Zimbabwe based on the author's longstanding research on Harare The political and economic changes in Zimbabwe since the 1980s transformed Harare from one of the best African cities to live in over this period to one of the worst Harare citizens' livelihoods exemplify in microcosm the central theme of the book the re-invention of circulation and rural urban links in response to economic change Deborah Potts is a Senior Lecturer in the Geography Department of King's College London She works in the broad research field of urbanization and migration in sub-Saharan Africa particularly southern Africa and has conducted research on these themes in Harare in Zimbabwe since 1985 Southern Africa South Africa

W.T.S. Gould, 2015-05-08 The new edition of Population and Development offers an up to date perspective on one of the critical issues at the heart of the problems of development for all countries and especially those that seek to implement major economic and social change the reflexive relationships between a country's population and its development How does population size distribution age structure and skill base affect development patterns and prospects How has global development been affected by regional population change Retaining the structure of the well received first edition the book has been substantially revised and updated The opening chapters of the book establish the theoretical and historical basis for examining the basic reflexive relationship with exploration of the Malthusian perspective and its critics to examine how population change affects development and exploration of the Demographic Transition Model and its critics to examine how why and to what extent development drives population change These are followed by empirically rich chapters on each of the main components of population change mortality fertility internal and international migration age structures and skill base each elaborating key ideas with detailed and contrasting case studies from all regions of the developing world There are concluding and more integrative discussions on population policies and global population futures Bringing together Population Studies Development Studies and Geography the new edition of Population and Development is a key resource for undergraduate and postgraduate students across a range of programmes with specialist modules on population change There is a large bibliography with major new sections identifying a wide range of online resources for further study Each chapter contains a reading guide with discussion questions The text is enlivened by a number of case studies from around the world most of which are new or have been substantially revised Written by a leading international scholar in population the book successfully integrates cutting edge academic research with the focus and efforts of international development agencies

Research Handbook on the Sociology of Migration Giuseppe Sciortino, Martina Cvajner, Peter J. Kivisto, 2024-01-18
Adeptly navigating one of the most pressing issues on the current global agenda this topical Research Handbook provides a comprehensive and research based exploration of the sociology of migration As well as highlighting the field's achievements and current challenges it explores key concepts used in current research methods employed and the spheres and contexts in which migrants participate *Remittance Income and Social Resilience among Migrant Households in Rural Bangladesh*
Mohammad Jalal Uddin Sikder, Vaughan Higgins, Peter Harry Ballis, 2017-09-30 This book examines how migrant remittances contribute to household social resilience in rural Bangladesh Using a mixed methods approach the authors show that remittances play a crucial role in enhancing the life chances and economic livelihoods of rural households and that remittance income enables households to overcome immediate pressures adapt to economic and environmental change build economic and cultural capital and provide greater certainty in planning for the future However the book also reveals that the social and economic benefits of remittances are not experienced equally by all households Rural village households endure a

precarious existence and the potentially positive outcomes of remittances can easily be undermined by a range of external and household specific factors leading to few if any benefits in terms of household social resilience Migration in Africa Michiel de Haas, Ewout Frankema, 2022-03-30 This book introduces readers to the age of intra African migration a period from the mid 19th century onward in which the center of gravity of African migration moved decisively inward Most books tend to zoom in on Africa s external migration during the earlier intercontinental slave trades and the more recent outmigration to the Global North but this book argues that migration within the continent has been far more central to the lives of Africans over the course of the last two centuries The book demonstrates that only by taking a broad historical and continent wide perspective can we understand the distinctions between the more immediate drivers of migration and deeper patterns of change over time During the 19th century Africa s external slave trades gradually declined whilst Africa s expanding commodity export sectors drew in domestic labor This led to an era of heightened mobility within the region marked by rapidly rising and vanishing migratory flows increasingly diversified landscapes of migration systems and profound long term shifts in the wider patterns of migration This era of inward focused mobility reduced with a resurgence of outmigration after 1960 when Africans became more deliberate in search of extra continental destinations with new diaspora communities emerging specifically in the Global North Broad ranging in its temporal spatial and thematic coverage this book provides students and researchers with the perfect introduction to age of intra African migration **Undercurrents of Ethnic Conflict in Kenya** John Ouko, 2021-11-08 This book analyses the ethnic conflict that engulfed Kenya s Rift Valley Province at the turn of the nineties when multi party democratic politics were being reintroduced in the country Its central thesis is that ethnic conflict in the country then was a function of several issues among them ethnocentrism politics the land question and criminal behaviour in certain circles Both its determinants and consequences are demographic economic political and socio cultural implying the risks involved in oversimplifying issues *Handbook of Population* Dudley L. Poston Jr., 2019-04-16 The 2nd edition of the Handbook of Population covers the major topics of the discipline of demography including current substantive methodological and theoretical issues of interest as well as new and emerging topics in the field In addition to revised updated and extended chapters that were included in the 1st edition this 2nd edition of the Handbook brings to the forefront entirely new chapters covering such major themes as children adoption sexuality inequality population psychology rural demography and obesity Chapters in this Handbook will expand our knowledge of the field and will raise awareness of the causes and the consequences of demographic behavior and events in societies throughout the world This 2nd edition will also serve as a reference in the field of population studies for years to come It will generate new questions and research ideas and will positively impact the growth development and expansion of demography *Urban China in Transition* John Logan, 2011-07-22 Using an innovative approach this book interprets the unprecedented transformation of contemporary China s major cities It deals with a diversity of trends and analyzes their sources Offers a

multi dimensional analysis of urban life in China Highlights a diversity of trends in the areas of migration criminal victimization gated communities and the status of women suburbanization and neighbourhood associations Each chapter includes input from both an expert on urban life in China and an outside expert from the fields of sociology geography economics planning political science history demography architecture or anthropology An alternative theoretical perspective comparing the Chinese experience with other urban settings in the United States Poland Russia Vietnam East and South East Asia and South America International Handbook of Migration and Population Distribution Michael J. White,2015-12-11 This Handbook offers a comprehensive collection of essays that cover essential features of geographical mobility from internal migration to international migration to urbanization to the adaptation of migrants in their destinations Part I of the collection introduces the range of theoretical perspectives offered by several social science disciplines while also examining the crucial relationship between internal and international migration Part II takes up methods ranging from how migration data are best collected to contemporary techniques for analyzing such data Part III of the handbook contains summaries of present trends across all world regions Part IV rounds out the volume with several contributions assessing pressing issues in contemporary policy areas The volume s editor Michael J White has spent a career studying the pattern and process of internal and international migration urbanization and population distribution in a wide variety of settings from developing societies to advanced economies In this Handbook he brings together contributors from all parts of the world gathering in this one volume both geographical and substantive expertise of the first rank The Handbook will be a key reference source for established scholars as well as an invaluable high level introduction to the most relevant topics in the field for emerging scholars *The Scale of Urban Change Worldwide 1950-2000 and Its Underpinnings* David Satterthwaite,2005 **The Transition to a Predominantly Urban World and Its Underpinnings** David Satterthwaite,2007 **Innovations in Urban and Regional Systems** Jean-Claude Thill,2020-05-11 This book presents cutting edge research on urban and regional systems applying modern spatial analytical techniques of Geographic Information Science Technologies GIS T spatial statistics and location modeling The contributions written by leading scholars from around the globe adopt a spatially explicit analytical perspective and highlight methodological innovations and substantive breakthroughs on many facets of the socioeconomic and environmental reality of urban and regional contexts The book is divided into three parts The first part offers an introduction to the research field while the second part discusses critical issues in urban growth and urban management presenting case studies on city and urban environments their growth data infrastructures and spatial and management issues The third part then broadens the analysis to the regional scale addressing growth convergence and adaptation to new economic and information based realities This book appeals to scholars of spatial and regional sciences as well as to policy decision makers interested in advanced methods of spatial analysis location modeling and GIS T
