New Social Order Post War Reconstruction:

The Social Gospel and the New Social Order, 1919-1929 William Finley McKee, 1961 **Photography, Reconstruction and the Cultural History of the Postwar European City** Tom Allbeson, 2020-11-16 Examining imagery of urban space in Britain France and West Germany up to the early 1960s this book reveals how photography shaped individual architectural projects and national rebuilding efforts alike Exploring the impact of urban photography at a pivotal moment in contemporary European architecture and culture this book addresses case studies spanning the destruction of the war to the modernizing reconfiguration of city spaces including ruin photobooks about bombed cities architectural photography of housing projects and imagery of urban life from popular photomagazines as well as internationally renowned projects like UNESCO s Paris Headquarters Coventry Cathedral and Berlin s Gedächtniskirche This book reveals that the ways of seeing shaped in the postwar years by urban photography were a vital aspect of not only discourses on the postwar city but also debates central to popular culture from commemoration and modernization to democratization and Europeanization This book will be a fascinating read for researchers in the fields of photography and visual studies architectural and urban history and cultural memory and contemporary European history **Gough Whitlam: A Moment In History** Jenny Hocking, 2014-06-01 This moment was not his alone nor could it ever have come about without him Gough Whitlam turned to Graham Freudenberg touched him lightly on the shoulder saying It s been a long road Comrade but we re there and walked out to meet the spotlight Acclaimed biographer Jenny Hocking s Gough Whitlam A Moment in History is the first contemporary and definitive biographical study of the former Labor Prime Minister From his childhood in the fledgling city of Canberra to his first appearance as Prime Minister playing Neville Chamberlain to his extensive war service in the Pacific and marriage to Margaret the champion swimmer and daughter of Justice Wilfred Dovey the biography draws on previously unseen archival material extensive interviews with family and colleagues and exclusive interviews with Gough Whitlam himself Hocking s narrative skill and scrupulous research reveals an extraordinary and complex man whose life is in every way formed by the remarkable events of previous generations of his family and who would in turn change Australian political and cultural developments in the twentieth century Rural and Regional Futures Anthony Hogan, Michelle Young, 2014-09-19 Agriculture mining and related rural industries have been central to the development of Australia s economy This book details the role that the Australian Government has played in the making of rural and regional Australia particularly since World War II The book reviews these policies and evaluates them with regards the commitments undertaken by the Government to contribute towards vibrant rural communities Policy areas addressed include agriculture water education welfare and population natural resource management resource extraction Indigenous and affairs localism rural research and regional innovation Youth Affairs and the devolution of regional governance Overall two distinct policy strategies can be observed one wherein the government saw its role as part of the entrepreneurial state and a sector wherein

government has increasingly taken itself out of industry development leaving this role to the market Having considered these strategies and their impacts the book concludes that policy over the past 40 years has not in fact contributed to a more vibrant prosperous rural and regional Australia Rural and Regional Futures concludes with several chapters looking to the future One chapter explores what the role of the state can be within a social market economy while the final chapter gives consideration to the initial steps rural communities will need to take to begin the process of revitalisation While these materials present as a case study of developments in Australia the policy shift from the Government as entrepreneur to a focus on markets is an international one and as such the insights offered by this book will have wide appeal **Property,**

Politics, and Urban Planning Leonie Sandercock,1990-01-01 This book written before the cusp of a waning left liberal approach to planning issues and a just blossoming neo Marxist paradigm reflects the ambivalence of its era Developments in social and political theory have generated new ways of understanding the role of urban planning in capitalist societies and the emergence of feminist historical frameworks have led Sandercock to reconsider her gender neutral approach to planning history **Writing the Everyday** Andrew McCann,1998 No Marketing Blurb **Revolutionary Warfare** Terrence G.

Peterson,2024-09-15 Revolutionary Warfare investigates how efforts to counter a revolution could also be revolutionary The Algerian War fractured the French Empire destroyed the legitimacy of colonial rule and helped launch the Third Worldist movement for the liberation of the Global South By tracing how French generals officers and civil officials sought to counter Algerian independence with their own project of radical social transformation Terrence G Peterson reveals that the conflict also helped to transform the nature of modern warfare The French war effort was never defined solely by repression As Peterson details it also sought to fashion new forms of surveillance and social control that could capture the loyalty of Algerians and transform Algerian society Hygiene and medical aid efforts youth sports and education programs and psychological warfare campaigns all attempted to remake Algerian social structures and bind them more closely to the French state In tracing the emergence of such programs Peterson reframes the French war effort as a project of armed social reform that sought not to preserve colonial rule unchanged but to revolutionize it in order to preserve it against the global challenges of decolonization Revolutionary Warfare demonstrates how French officers efforts to transform warfare into an exercise in social engineering not only shaped how the Algerian War unfolded from its earliest months but also helped to forge a paradigm of warfare that dominated strategic thinking during the Cold War and after counterinsurgency One Hundred Years of Social Work Therese Jennissen,Colleen Lundy,2011-02-17 One Hundred Years of Social Work is the first comprehensive history of social work as a profession in English Canada Organized chronologically it provides a critical and compelling look at the internal struggles and debates in the social work profession over the course of a century and investigates the responses of social workers to several important events A central theme in the book is the long standing struggle of the professional association the Canadian Association of Social Workers and individual social workers to reconcile

advancement of professional status with the promotion social action The book chronicles the early history of the secularization and professionalization of social work and examines social workers roles during both world wars the Depression and in the era of postwar reconstruction It includes sections on civil defence the Cold War unionization social work education regulation of the profession and other key developments up to the end of the twentieth century Drawing on extensive archival research as well as personal interviews and secondary literature the authors provide strong academic evidence of a profession that has endured many important changes and continues to advocate for a just society and a responsive social welfare state One Hundred Years of Social Work will be of interest to social workers social work students and educators social historians professional associations and anyone interested in understanding the complex nature of people and institutions **The Dublin Review** ,1942 **Municipal Reference Library Notes** ,1919 APAIS,
