*Beer and Brewing in Medieval Culture and Contemporary Medievalism* John A. Geck, Rosemary O'Neill, Noelle Phillips, 2022-06-25 *Beer and Brewing in Medieval Culture and Contemporary Medievalism* is a cross-cultural analysis of the role that alcohol consumption played in literature, social and cultural history, and gender roles in the Middle Ages. The volume also seeks to correct or offer new insights into historical beer production. By drawing on the expertise of scholars of history, archaeology, Old and Middle English, Old Norse, and Medieval and Early Modern literature, the book shows how historical medieval beer and brewing has influenced nostalgic, post-medieval nationalism, and romanticized visions of the medieval ale house seen in beer marketing today. The essays describe alcohol consumption in the Middle Ages across much of Northern Europe, engage with the various myths employed in modern craft beer advertising, and examine how gender intersects with beer production and consumption. The editors also raise certain critical questions about medievalisms which need to be interrogated particularly in light of the continued use of the Middle Ages for white supremacist and colonialist ideals. The volume contributes to the study of the popular and historical understandings of the Middle Ages as well as the issues of race and gender.
