Process Innovation: Enabling Change by Technology Daniel R. A. Schallmo, Leo Brecht, Bujar Ramosaj, 2018-05-10 This management manual and textbook introduces the theoretical basics of process management and provides a procedural model for process innovation. The procedural model makes it possible to develop customer oriented processes in a structured manner and to design them in order to meet changing requirements. This textbook has been recommended and developed for university courses in Germany, Austria and Switzerland. This book enables readers to understand and apply the seven phase procedural model for process innovation in order to design and implement innovative processes. Exercises and review questions test understanding of the theoretically acquired knowledge. **Mergent International Manual**, 2003 **Das Strategiebuch** Rainer Zimmermann, 2011-02-14 Bisher zum Thema Strategie gibt es zuhauf. Neu ist der Ansatz von Rainer Zimmermann. Er destilliert aus der Vielzahl strategischer Empfehlungen einen Kanon von 72 universalen Handlungsmustern und arbeitet jeweils deren strategische Kernleistung heraus. Seine Grundannahme: Es gibt eine endliche Anzahl strategischer Figuren und Muster, die unendlich variationsreich ausgefüllt werden können. Dem Autor gelingt es, eine präzise Definition und einen kurzen Abriss der Historie der jeweiligen Strategie zu geben und sie durch prägnante Anwendungsbeispiele aus Wirtschaft, Politik, Kommunikation, Design, Architektur und Alltag mit Leben zu füllen. **The Craft and Science of Coffee** Britta Folmer, 2016-12-16 The Craft and Science of Coffee follows the coffee plant from its origins in East Africa to its current role as a global product that influences millions of lives through sustainable development, economics and consumer desire. For most, coffee is a beloved beverage. However, for some it is also an object of scientific study, and for others it is approached as a craft, both building on skills and experience. By combining the research and insights of the scientific community and expertise of the craftspeople, this unique book brings readers into a sustained and inclusive conversation, one where academic and industrial thought leaders, coffee farmers and baristas are quoted, each informing and enriching each other. This unusual approach guides the reader on a journey from coffee farmer to roaster, market analyst to barista, in a style that is both rigorous and experience-based, universally relevant and personally engaging. From farming processes to consumer benefits, the reader is given a deeper appreciation and understanding of coffee's complexity and is invited to form their own educated opinions on the ever-changing situation, including potential routes to further shape the coffee future in a responsible manner. Presents a novel synthesis of coffee research and real world experience that aids understanding, appreciation and potential action. Includes contributions from a multitude of experts who address complex subjects with a conversational approach. Provides expert discourse on the coffee value chain from agricultural and production practices, sustainability, post-harvest processing and quality aspects to the economic analysis of the consumer value proposition. Engages with the key challenges of future coffee production and potential solutions.
