

Ultimate Sleep Hacks

Put your phone down 2 hrs before bed. You'll thank us tomorrow, we promise.

Bust out the aromatherapy. And breathe in and out the zen vibes.

Use a weighted blanket. It's like getting tucked in with a giant hug.

Sleeping masks are equal parts fashionable and functionable.

Try a white noise machine or sleep meditation to knock out in an instant.

Turn the TV off. That next episode will be just as good in the morning.

Get in the nighttime flow with some restorative yoga.

Save the intense workouts for earlier in the day. That adrenaline rush won't help you sleep.

Sleep Hacks In The Us:

Sleep Hacking for Busy Bees: Optimizing Sleep in Short Bursts Ethan West, In our frenetic modern world the quest for efficiency often comes at a steep price We juggle demanding careers personal responsibilities and social obligations all while trying to maintain a semblance of balance Amidst this relentless hustle one crucial aspect of our well being frequently gets shortchanged sleep Have you ever caught yourself wondering How can I get the most out of my sleep in the little time I have If so you re not alone This book delves into the art and science of sleep hacking a practice designed to optimize sleep for those who lead busy lives But before we delve into the nitty gritty let s explore why sleep is non negotiable Sleep is often perceived as a luxury something we can afford to cut back on to squeeze in an extra hour of work or play Yet research consistently underscores that sleep is foundational to our health and well being According to the National Sleep Foundation adults need between 7 to 9 hours of sleep per night for optimal functioning However a staggering one in three adults doesn t meet this requirement leading to a host of physical and mental health issues So why is sleep so important

Sensehacking Charles Spence, 2021-01-14 The world expert in multisensory perception on the remarkable ways we can use our senses to lead richer lives Talks total sense lots of fun facts right up there with the best of the best Chris Evans Packed with studies on pain attention memory mood The Times How can the furniture in your home affect your wellbeing What colour clothing will help you play sport better And what simple trick will calm you after a tense day at work In this revelatory book pioneering and entertaining Oxford professor Charles Spence shows how our senses change how we think and feel and how by hacking them we can reduce stress become more productive and be happier We like to think of ourselves as rational beings and yet it s the scent of expensive face cream that removes wrinkles temporarily a room actually feels warmer if you use a warmer paint colour and the noise of the crowd really does affect the referee s decision Understanding how our senses interact can produce incredible results This is popular science at its unbelievable best Spence does for the senses what Marie Kondo does for homes Avery Gilbert author of What the Nose Knows Everything you need to know about how to cope with the hidden sensory overload of modern life engagingly told Robin Dunbar author of How Many Friends Does One Person Need The Hacking of the American Mind Robert H. Lustig, 2017-09-12 Explores how industry has manipulated our most deep seated survival instincts David Perlmutter MD Author 1 New York Times bestseller Grain Brain and Brain Maker The New York Times bestselling author of Fat Chance reveals the corporate scheme to sell pleasure driving the international epidemic of addiction depression and chronic disease While researching the toxic and addictive properties of sugar for his New York Times bestseller Fat Chance Robert Lustig made an alarming discovery our pursuit of happiness is being subverted by a culture of addiction and depression from which we may never recover Dopamine is the reward neurotransmitter that tells our brains we want more yet every substance or behavior that releases dopamine in the extreme leads to addiction Serotonin is the contentment neurotransmitter that tells our brains we don t need any more yet its

deficiency leads to depression Ideally both are in optimal supply Yet dopamine evolved to overwhelm serotonin because our ancestors were more likely to survive if they were constantly motivated with the result that constant desire can chemically destroy our ability to feel happiness while sending us down the slippery slope to addiction In the last forty years government legislation and subsidies have promoted ever available temptation sugar drugs social media porn combined with constant stress work home money Internet with the end result of an unprecedented epidemic of addiction anxiety depression and chronic disease And with the advent of neuromarketing corporate America has successfully imprisoned us in an endless loop of desire and consumption from which there is no obvious escape With his customary wit and incisiveness Lustig not only reveals the science that drives these states of mind he points his finger directly at the corporations that helped create this mess and the government actors who facilitated it and he offers solutions we can all use in the pursuit of happiness even in the face of overwhelming opposition Always fearless and provocative Lustig marshals a call to action with seminal implications for our health our well being and our culture

Technosleep Catherine Coveney, Michael Greaney, Eric L. Hsu, Robert Meadows, Simon J. Williams, 2023-06-25 This book draws on a variety of substantive examples from science technology medicine literature and popular culture to

highlight how a new technoscientifically mediated and modified phase and form of technosleep is now in the making in the global north at least and to discuss the consequences for our relationships to sleep the values we accord sleep and the very nature and normativities of sleep itself The authors discuss how technosleep at its simplest denotes the coming together or entanglements of sleep and technology and sensitizes us to various shifts in sleep technology relations through culture time and place In doing so it pays close attention to the salience and significance of these trends and transformations to date in everyday night life their implications for sleep inequalities and the related issues of sleep and social justice they suggest

Cheat the Clock Margaret Webb Pressler,2012-12-04 Washington Post reporter Margaret Webb Pressler s husband Jim is one of those people who doesn t look his age After years of fielding questions about how he does it Pressler decided to ask the experts Her conversations with some of the world s leading experts on aging and genetics which she wrote about for the newspaper revealed a new world of research and advice about aging and what you can do to age less feel better and look better Virtually everything she uncovered dovetailed with habits that Jim had already established for himself But beyond that she found a tremendous amount of new research about how and why we age the anti aging properties of foods and supplements and the youth retaining effects of certain behaviors Cheat the Clock uses Jim Pressler as a jumping off point to examine the foremost advice and research about aging well with actionable advice for real people that they can easily incorporate into their lives on a daily basis Jim s experience is worth sharing Margaret s research showed that he is proof there are many small easy steps that people can take that make a difference in how good they feel and look over many years and that the proverbial good genes don t play as large of a role as we once thought These are not the ideals of a fitness buff or a nutrition fanatic these minor tweaks in diet exercise lifestyle and personal care are painless to adopt and achievable for anyone but can have a big payoff over time In Margaret s engaging style Cheat the Clock shows the long term rewards of adopting a new regimen focused on these crucial aspects Maintaining a healthy weight Engaging in the right kind and right amount of exercise Eating an anti aging diet Getting antioxidants from food Discovering the wonders of the right dosage of Vitamin E Avoiding behaviors that age people the most Having plenty of sex Taking care of skin and teeth Adjusting attitude and lifestyle
