Max Streaming Today:

The Last Mixtape Seth Long, 2025-07-16 A reflection on the evolution of physical media into metaphor through the history of music curation. Obsolescence makes the heart grow fonder at least in the case of the mixtape. Not all technologies are so lucky. Some say wax cylinders fade almost completely from cultural memory. A lucky few pass into metaphor; we still hang up our smartphones, cut film, and patch computer code. As digital streaming completes the obsolescence of physical media, what will become of the humble cassette? In *The Last Mixtape*, Seth Long offers a microhistory of music curation anchored by the cassette from which he explores the meanings of obsolescence, ownership, nostalgia, and the speed of cultural change. A moving meditation on our relationship with music, memory, and curation in the digital century, Long ultimately calls for a return to the media ecology represented by the mixtape: a world in which media is cheap and abundant but tactile and meaningfully engaged.

Digital Media and Innovation Richard A. Gershon, 2024-03-26 This fully updated second edition explores the importance of innovation and innovative thinking for the long-term success of today's leading media, telecommunications, and information technology companies. The book takes an in-depth look at how smart, creative companies have transformed today's digital economy by introducing unique and highly differentiated products and services. This edition provides a detailed overview of intelligent networks and analyzes disruptive business models and processes from companies involved in social media, artificial intelligence, the metaverse, smart cities, and robotics among other emerging areas. From Apple to Zoom, this book considers some of the key people, companies, and strategies that have transformed the communication industries. Exploring the power of good ideas, this book goes inside the creative edge and looks at what makes such companies successful over time. *Digital Media and Innovation* is suited to advanced undergraduate and graduate courses in media management, media industries, communication technology, and business management and innovation, and provides up-to-date research for media and business professionals.
